Avant Garde Collection

Our new contemporary range of stylish doors are inspired by a demand for modern clean lines that reflect the aspirations of modern architectural homes.

When we set about the task of creating this new collection of doors, we had to be sure we never deviate from the high standard set by our existing Palladio range of doors and adhering to our core values, function and design.

Our new designs are inspired by the work produced by the “Bauhaus Movement” of the 1920’s and the work of Frank Lloyd Wright. We sincerely hope our new designs are sympathetic with the vision you have for your contemporary home.

Door Type - Buenos Aires Glass Type - TG501 Patinated (Min. Glass Width 170 mm) Colour Champagne (Smooth Finish)

Available in Silver only.

Stormguard Plus Rebated Threshold
Distance from bottom of door leaf to bottom of threshold - 20mm.
(Available in Silver only)

Slendertech Handle

600mm Curved Handle

1200mm Off set Handle

1200mm Prism Pull Handle

High Security Cylinder (optional extra)
Superior physical strength - Cylinder design that prevents lock bumping
Anti-snap now with break points allowing interior key to work even if external snap damage occurs

Yale

The Mantis 3 Lock can be used with a Lever Lever or Lever Pad handle, the lock consists of ten locking points, four roller cams, two linear bolts, two hooks, a thumb latch and a dead bolt.

GU Automatic Electric Lock

The GU Automatic lock gives automatic security. Simply close the door, 2 latches automatically throw and become rigid deadbolts which are locked against being forced back.

Avant Garde Handle

Heritage Slam Lock

Heritage Slam Locking System

An automatic 5 point locking system which is operated as soon as the door closes.

We have an extensive selection of furniture for our doors in various colours, enabling you to customise your door
Our designer handles add a stylish and contemporary look to our doors, ensuring customer satisfaction.

This 3D generated photo demonstrates the advantage of our unique hinge. As is evident from the above picture, this hinge is not attached to the outside of the door, and therefore enhances the appearance of the door, unlike a more conventional flag hinge - as seen on the left. Double seal and rebate.

Here you see our superior MONOCOQUE structure filled with a PUREX0 core along with a true colour ABS Sheet and a renolit foil finish on top that will ensure that your door will never fade as opposed to paint that will discolour (its just a matter of time).

On the right we have produced a cut through section of the Avant Garde door with the revolutionary high density PU core along with a 56mm triple glazed unit. We have created an ultra strong Durohalts composite structure laminated to a Renolit foil finish on the surface, giving you massive strength and security to your home

With Your Security And Safety In Mind

Fig. 1

Fig. 2

Above all we are a design and innovation led company and this will always shine through in the finished product. We start with the project design, then manufacture the machine we require and finally manufacture the product. Figure 1 shows the oak pattern from which the final mould will be produced.

The Picture above shows conventional composite doors, comprised of two 2mm skins bonded to a foam core.

To dispel any lingering doubt you may have, we have carried out our own rudimentary test using a 4x4 vehicle.

Figure 2 shows finished door from the original tooling.

Figure 3 is a good example of bad tooling design that lacks character.

On the other hand, compare this to Figure 4 which you can judge for yourself.
